THE FAIR ASSOCIATION.

A Bustle of Business at Their Headquarters.

Exhibitors, Bidders and Directors All in a Hurry-Privileges Sold for Good Prices -The Committee on Decorative and Fine Art-Arrangements Made by the Pair Marshals for the Opening.

Lively Scenes at the Fair Office. The scene at the office of the National Fair Association last evening was of the busiest character, a number of committees being insession, burrying up the business of their departments, and exhibitors and bidders being partments, and exhibitors and bidders being on hand looking out for their interests. The committee on refreshments announced their decision on the bids submitted to thom as follows: Cigars, John W. Brightwell, 8500; confectionary and mineral water stands, W. Hammersty, \$150; one manufactoring candy stand, F. M. Buckingham, \$150; (two others of this class remain to be sold, and will be let to the highest bidders); air-gun stand, E. S. Sizer, \$50; base-ball game, J. C. Pfeifer, \$50; three peannt stands, first, S. W. Moore, \$20, (with privilege of selling prize packages); second, H. H. Hudson, \$15, and third, S. Causau, \$15. The total amount realized from the sale of privilege strus far, including Finley & Koch's refreshment bid of \$3,250, is \$4,200.

The committee on decorative and fine art

The committee on decorative and fine art request all persons having objects of art which they are willing should be loaned for the purpose of display to make the same known to them, so that some member can call and ar-range tickets of identification, transportation, ce. These contributions need not be confined to pictures, but may include laces, fans, watches, jewelry, ceramics, shawls, pianocovers, needlework, gold, silver or bronze work, and any brica-brac of sufficient scarcity, age, value or artistic design to cutifle it to a place. Experienced portrer will be in charge piace. Experienced porters will be in charge of all handling and hanging, and all damage to frames, &c., will be repaired before return. Tickets or orders for transportation will be furnished to persons living in distant cities to forward articles for exhibition, on application to the committee.

to the committee, It is proposed that this collection shall be se-lect and choice, rather than extensive, and contributors should confine themselves to such ontributions as will tend to that end and be

worthy of the space they occupy.

A meeting of the Fair marshals was held at Shall hast night, and rules and regulations for their guidance adopted. It was decided that each marshal should wear a black loth suit, slouch hat, blue silk sash and blue badge, the mounted marshals to have in ad-dition white saddle-clothes trimmed with blue. The first day all the marshals will be mounted. and have charge of the industrial procession, but afterward only twelve will be mounted, their duties being to attend to business on the Fair grounds. The Board of Directors have de-cided not to allow "wheels of fortune" to be put up on the grounds, having already re-fused an offer of \$1.500 for this privilege. The track was completed yesterday, and several good streams of running water directed toward the stables and other buildings, thus insur-ing an abundance.

A meeting of butchers is called for 3 o'clock

Monday afternoon, at Odd-Fellows' Hall, to arrange for taking part in the grand industrial procession on the opening day of the Fair, in a manner that will be creditable to the butchers.

What Time Is It? \$25 for a solid gold Waltham or Elgin Stem-Winding Watch, at R. Harris & Co.'s 435 Sev-

RETURNING HOME. The Nationals Back Again-Prospects for

Next Season. The National club returned home last even-ing—that is, those members of it that will prob-ably remain here during the winter. Some of the boys give a very amusing account of the trip, and their opinion of Albany and some of its citizens, which only carries out the impressions that have previously been entertained of certain individuals in that city. They would have been home a day sooner, but remained in New York to witness the game between the Providence and English gricketers. They blame themselves for losing the first game in Albany, and say that it was lost in the seventh inning by inexcusable errors. The season is now over, and the subject of conversation coughs, and all affections of the where men will play. Another matter of some of fine old Rye Whisky and pure
White String Rock Candy. 81 per
bottle, 81 per gallon.

G-eo. VV. Driver.

The fine of the transfer of the strongly agitated to organize an interest is being strongly agitated to organize at interest is being strongly agitated to organize an interest is being strongly agitated to organize at interest is being strongly agitated to organize an interest is being strongly agitated to Troy has already taken the initiatory by declaring that at all games in which they par-ticipate next year the admission fee shall not exceed twenty-five cents. Worcester indorses this, and it is stated on good authority, that both Boston and Providence will cut loose from the League and enter such an association. That the remainder of the clubs will come into the arrangement no doubt is entertained. The League will then have for membership Buffalo, Cleveland, Cincinnati, Detroit, Chicago, and perhaps Milwaukee. This will give a strong Western combination, and they will have sufficient clubs in it to give them plenty of work. Such an association in the East will prove a financial success to every

Baffied Burglars.

Batween 4 and 5 o'clock yesterday morning several pistol shots in rapid succession slarmed people living in the vicinity of Eleventh and F streets northwest, and created considerable excitoment. Upon inquiry it was learned that the clothing establishment of Mr. A. Strauss on the Avenue bad been broken into. but the thieves being surprised sought safety in flight, followed by Officer Auldridge, who fired at them, but failed to hit anybody. While the excitement was at its height it was stated that one of the thieves had concealed himself in a basement on Elevanth street, near F. A diligent search was made, and just when the chase seemed a lootless one a woolly head was discovered poering over the pave-ment. Officer Mockabee was the discoverer of this prize, and ordered him to come up and surrender. Scoing himself hemmed in, the thiefaccepted the terms and came up, leaving his shoes behind. He was taken to the Fifth precinct station, where he was recognized as Charles Johnson, alias Brown, an old juli bird, and who has until recently been serving out a term at Albany. He was afterward taken be-fore Judge Snell and sent down to jail for a hearing. His companion in crime escaped, but as he is well known his capture is a mere

THE TENTH CRASUS.

An Important Notice to Agriculturists.

Ceneral F. A. Walker, Superintendent of the Census, has issued a circular in relation to productions of agriculture, intended to secure greater accuracy than in the last three census in the agricultural schedule. By the act of March 3rd, the returns are required to be used of the chief productions of agriculture "during the year ended June 1st." There is no distinct agricultural year which ends June 1st, and there is reason to believe that the statistics of agriculture from 1850 to 1870 in regard to many principal products embraced portions of two different crops, as the enumeration was protracted through several months. The liability to error is decreased by the limitation by law of the time for the present census to the month of June. There are certain production, as dairy products, meat, &c., when the product is gathered day, by day which should be given An Important Notice to Agriculturists

is gathered day, by day which should be given for the year from June 1, 1878, to May 31, 1879. In view of the requirements of the law and of the great importance of accurate statistical information relative to agriculture, it is deemed to be highly desirable that farmers should present the state of the contract that is the state of the contract that is the state of t to be highly desirable that farmers should pre-pare themselves in advance to give the in-formation with promptness and accuracy. It is argently recommended, therefore, that ag-ricultural journals and the officers of agricultu-ral recieties and clubs give publicity to this au-nouncement, and that all persons engaged in agriculture who shall receive this circular, or shall see it in the public prints, make notes from time to time of the quantities and values of their several crops gathered, and the numof their several crops gathered, and the num-ber of seres of land planted, in order that their statements, when made to the enumeraers, may be of the highest possible value.

To remove any doubts that may arise con-cerning the crops to be returned in the census, the following table presents the several crops specifically mentioned in the agricultural schodule, arranged accordingly as they fall into the calendar year 1879 or that of 1880, or are to be returned for the twelve months beginning June 1, 1879, and closing May 31, 1880.

1990.

Of the crop of the calendar year of 1979; Wheat, corn. rye, oats, barley, buckwheat, rice, to-bacco, cotton, potatoes, peas and beans, orchards, vineyards, small fruits, hay, clover seed, grass seed, hops, hemp, flax, flaxaced, sugar cane and sarghum—acres and quantity; bees number of hives, pounds of honey and wax.

Of the crop of the calcular year of 1880: Wool

-number of fleeces and pounds, maple sugar,

pounds; maple molasses, gallons.

Of the yield of twelve months, ending May 31:
Butter, eneese, milk sold; quantity animals slaughtered-value; market gardens-acres and value; forest products and home manufac-

It is believed that by calling attention of those interested to the subject the offorts of the bureau will be greatly facilitated, and it is to be hoped the press will give general cir-culation to the circular.

Southern Republicans in Session. The Southern Republican Association met at Beck's Hall last evening, a goodly number being in attendance. Mr. A. M. Greene, of Fiorida, presided and Mr. A. M. Hardy filled the position of secretary. The first question considered was a resolution offered by Mr. Sypher, of Louisiana, at a previous meeting, calling for the accompany of an executive calling for the appointment of an executive committee to conduct the coming campaign in the Sonthern States. After considerable discussion a committee of five, consisting of Messrs. Green, Pelham, McWhirter, Millard and Hardy, was appointed to report at the next meeting the names of two representatives from each Southern State to act as an execu-tive committee of the Southern Republican Association. The following were elected hon-Association. The following were elected hon-orary members of the association: Hon. Allen Butherford, ex-Senator West, Louisiana; Hon. A. L. Ackerman, Georgia; ex-Senator Dorsey, Arkansas; ex-Governor Davis, Texas, and Hon. T. G. Campbell, Georgia. After addresses by several members on the political condition by several members on the political condition of the South, the association adjourned.

For Shades, go to Julius Lansburgh's. What is the Matter?

The apparently unusual solicitude of the police officials to aid Lum Fearson, a rather poterious character who was arrested yesterday morning and arraigned in the Police court on a charge of perjury preferred by Mr. Joseph Sturgiss, has excited considerable comment and curiosity as to the motive. The warrant for Feareou's arrest was placed in the hands of the police Thursday night, but in order not to cause him any inconvenience the service of the warrrant was postponed until the following morning. It appears that after that the prisoner was treated with the greatest con-sideration, was aided by a prominent official in securing counsel, and, as the case was continued until to-day, was released on on his own personal recognizance, through the influence of a letter addressed to the District Attorney by the preminent police official.

The Cone River Oyster Roast, The steamer George Leary will leave her wharf at 11:30 o'clock to-night for Cone River, Virginia, where a big oyster roast will be held to-morrow. The boar of departure is purposely made late so that business men can take advantage of the excursion without inconvenience. The boat will arrive at its destination at 8 o'clock to-morrow marging when the excursionists will

morrow morning, when the excursionists will take possession of Colonel Sam Strong's planta-tions. Three hundred bushels of oysters will be roasted and served up in "Old Virginia Style." There will be plenty of gunning, boating and fishing and other means of amusement. Leary will arrive back in Wushingto promptly at 10:30 o'clock to-morrow night. The Best 1.50, \$2.00, \$2.50, and \$3.00

LIEUTENANT HOXIUS REPORT.

Liberal Expenditure for Increasing th Water Supply Becommended. A Liberal Expenditure for Increasing the Water Supply Becommended.

The report of Lieutenant R. L. Hoxle, which was submitted yesterday, states that the total deficit of the United States on account of the work of improvement since 1871 is approximately \$1,040,152.04. It refers to the fact that the era of the special improvement tax and all matters growing out of it, will pass away with the completion of the revision of the special assessments, the collection of the delinquent tax and the resumption of the tax lieu certificates with the eight per cent. improvement bonds. Sewers should only be laid by the District government, and pipe sewers should be put down more substantially than poperty-holders are required to lay them. The sewerage of the B-street drainage area is in satisfactory progress and the appropriation will soon be exhausted. There is every indication of a vigorous prosecution of the work on the Boundary sewer. During the next fiscal year the New York avenue sewer and the improvements in progress at the canal outlet, on the river front, should be completed.

A considerable portion of the report is given to the discussion of the water supply. It states that a large conduit and large mains are needed for the supply of Washington in

that a large conduit and large mains are needed for the supply of Washington in order to preserve a proper elevation of the water. He advocates a liberal expenditure at that a large conduit and large mains are needed for the supply of Washington in order to preserve a proper elevation of the water. He advocates a liberal expenditure at the present time in extending the conduit and erecting a new distributing reservoir, saying that if the United States Government will not assume the cost it can be paid in accordance with the principle established of dividing the expenses of the District government. And he claims that there is no sufficient reason why the United States should not pay the water rates the same as other water takers. He presents the plans and estimates for an additional supply of water, which are the same as presented last February, except an increase of the estimates for the four-foot main, on ascount of the rise in the price of iron. He asks that Congress be requested to appropriate not that Congress be requested to appropriate not less than \$500,000 for land condemnations, the commencement of the work upon the con-duct, and the completion of the dam at the

The Largest Stock

of ladles', gentlemen's and children's furnishing goods ever shown in this city will be opened on Mouday. October 20, at C. Baum's new building, 416 Seventh street.

Services To-morrow.

Each of Warner's Safe Remedies—the Safe Kid-ney and Liver Cure, Safe Fills, Safe Nervine and Safe Bitters—is assorted to be the test of its class, and the intention is to keep it so. If any medical expect can add an ingredient which will improve any one of them, he will be paid a high price for the improvement.

Wealth Easily Obtained.

Jay Gould, combining vast amounts of money with several great capitalists, has frequently made colossal profits in stock speculations, paying millions to each shareholder. The new combination plan of Mesers. Lawrence & Co. confers similar benefits on the shareholders who invest small and large amounts, from 520 to 350,000. The money of thousands of customers is thus massed in one mighty sum, and, operated with the ripest experience and best skill, has secured the most brilliant successes. A hotel scoper in Ohle invested 5100 in a combination, which neised \$473. Three nonvestments resulted in a total profit of \$13,501.18. A Hoston genteman invested \$600 in a combination, which yielded a profit of \$2,817.04; two retrivestments usted him \$5,04.43!. A Chicago merchant made \$43,219.41 in four months of combination investments. Now explanatory circular with "inless for meering success." Apply to Messrs. Lawrence & Co., Bankers, 57 Exchange Place, New York city.

Pradeof Steck Speculation.

Prudent Stock Speculation.

The Stock Exchange never presented such an admirable condition for profusble and rapid stock operations. There have before have been so many fortunes made by quief discinations and skillful manipulations. Careful and reasonable people only operate through the combination system of Messrs. Simpson & Co., which enables those with large or small means to invest and realize hands only profits, which are divided yes eak among the shareholders every thirty days. New combinations are constantly forming. From 35, \$10, \$25, \$50 or \$100 can be safely investments. A Michigan farmer invested \$50, which yielded \$438,14. He made by three investments over \$50.00. A Wisconsin country merchant made \$1.25,10 in four combinations, and others have done equally as well. New explanators election, with Unstring rules for success, malled by Mesers Simpson & Co., Bankers, 49 Exchange Place, New York City.

TO THE PUBLIC:

The burning of our Planing Mills and Lumber Yards, in Salisbury, Md., will not interfere with our business in this city, as our main supply comes from our mills in Virginia.

Having recently leased the yard of Messrs. Mohun & Sons and stocked the same, in addition to the Fugitt yard, we claim to have on hand the Largest Stock of Lumber ever offered for sale in this city.
